Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 13-17 are objected to because of the following informalities:

Claims 13-17 each refer to an 'application of a printer according to claim 1'. This claim language does not clearly point out exactly how the claim intends to incorporate the subject matter of claim 1. As the claim content appears to contradict the subject matter of claim 1, the claims cannot be suitably interpreted. As a result, these claims cannot be examined on the merits at this time and have not been included in the restriction requirement below.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 8 and 20, drawn to a thermal printer comprised of a plurality of modules and including a first and second carrying member and a first and second electronic control means, wherein the second electronic control means comprise substitution alternative elementary electronic control means.

Art Unit: 2854

Group II, claim(s) 1-3, 5-7, 9, 18 and 19, drawn to a thermal printer comprised of a plurality of modules and including a first and second carrying member and a first and second support wherein the second support is mainly composed of a nesting dummy cover.

Group III, claim(s) 1 and 10, drawn to a thermal printer comprised of a plurality of modules, wherein a driving means comprise at least one pusher implementing motorized means for driving a band.

Group IV, claim(s) 1 and 11, drawn to a thermal printer comprised of a plurality of modules, wherein a cutter is mounted in an easily reversible manner on the chassis of the first module.

Group V, claim(s) 1 and 12, drawn to a thermal printer comprised of a plurality of modules, wherein a back-up roll is mounted on the first carrying member of the third module.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each of the listed groups has a unique special technical feature, as detailed in the above descriptions of the groups.

A telephone call was made to Nicolas Seckel on June 5, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jill E. Culler whose telephone number is (571) 272-2159. The examiner can normally be reached on M-F 10:00-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen can be reached on (571) 272-2258. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
